

# PRESERVE

## OUTDOOR COLLABORATION

# THINK OUTSIDE THE WALLS

Maximize the effectiveness of your footprint by creating a “fourth space” outdoors.

---

## WHAT IF YOUR BEST IDEAS STARTED OUTSIDE?

Not defined by four walls, Preserve reclaims the outdoors providing a smart use of otherwise forgotten meeting space. Inspired by nature and wellness, Preserve will help free your mind to think outside of the walls.

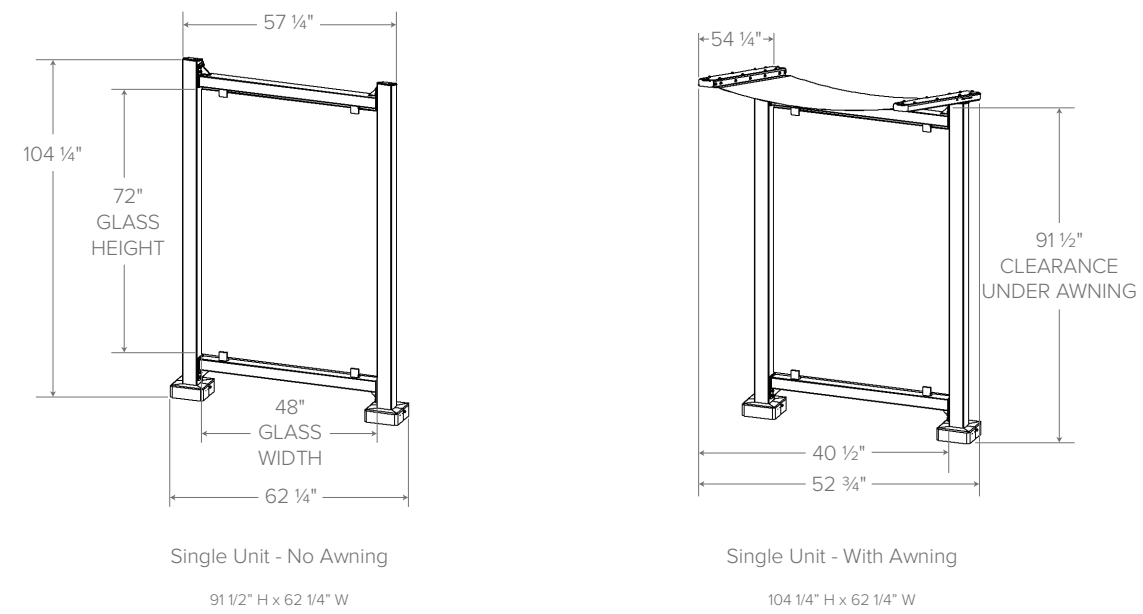

Preserve is a permanent outdoor meeting space designed for collaboration beyond four walls. Discover the benefits of outdoor collaboration and how Preserve’s intentional design is made to last.

# PRESERVE SINGLE UNIT

## Statement of line

## Features

# THE DETAILS MAKE THE DIFFERENCE

Built on-site, Preserve is designed to withstand a multitude of weather conditions. Reinforced steel columns support either a 4'H x 6'W vertically mounted 1/2" thick laminated tempered glassboard, or a slat wall in nature-friendly colors. Units can be configured as singles, doubles, or connected canopy units for maximum use of space.

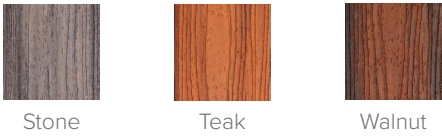

Preserve finishes and colors have been expertly chosen to avoid disrupting the aesthetic balance of nature. Fabric and Composite Decking are made from recycled materials, and Steel and Glass are fully recyclable, delivering on our commitment to sustainability.

# THE RESEARCH

The biophilia hypothesis - humans possess an innate tendency to seek connections with nature and other forms of life. There are hundreds of studies tackling this topic, reporting shifts in perseverance, problem solving, critical thinking, leadership, teamwork, and resilience, as well as improvements in attention, levels of stress, self-discipline, and interest/enjoyment.

## THE FACTS:

# PRESERVE

COMMUNICATE • COLLABORATE • LEARN

## OUTDOORS
