

WOOD & LAMINATE

Finish Guide

ghent.

Designed With You, For You

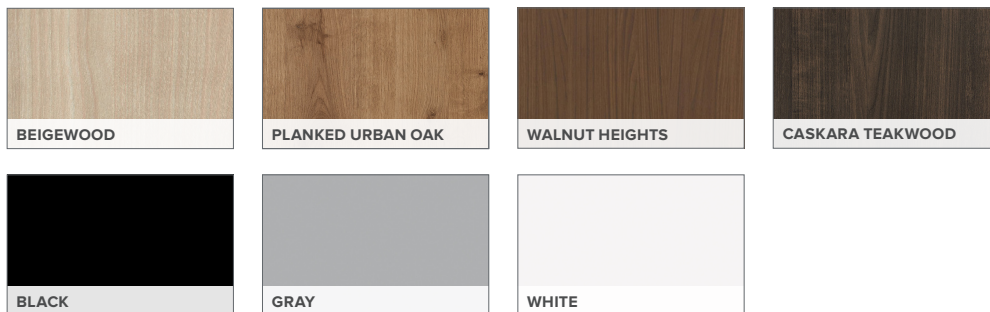

Over 100 years of craftsmanship have taught us the importance of turning raw, honest materials into pieces that encourage authenticity and personalization. The materials we offer were carefully chosen to help tell your story through emotion, texture, personality, and intention as a reflection of the brand and people they represent.

Product finishes don't always fit the intended space for the product, so we offer an extended finish library, customer own material program, custom printing, and stain matching services to ensure products will look and feel intentionally selected.

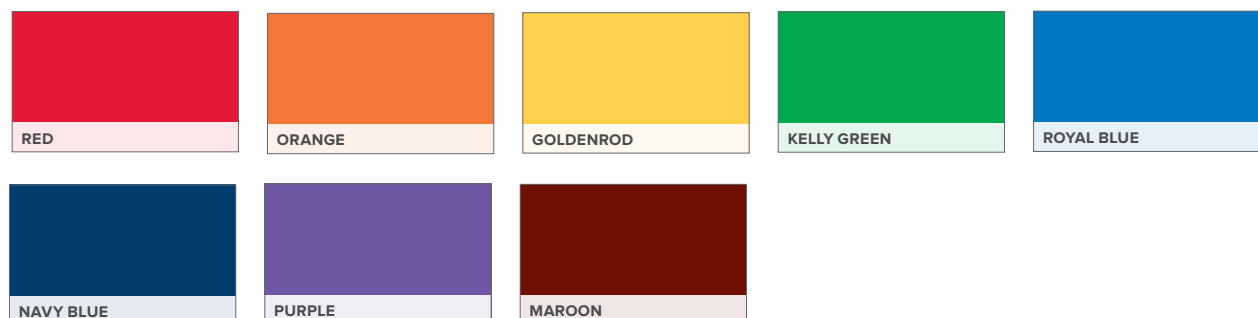

Laminates

Specially curated laminates are available as a standard from Wilson Art and Formica. Create a product that makes a statement or seamlessly blends into the space.

Standard Laminate offering*

Available only on Spirit display cases

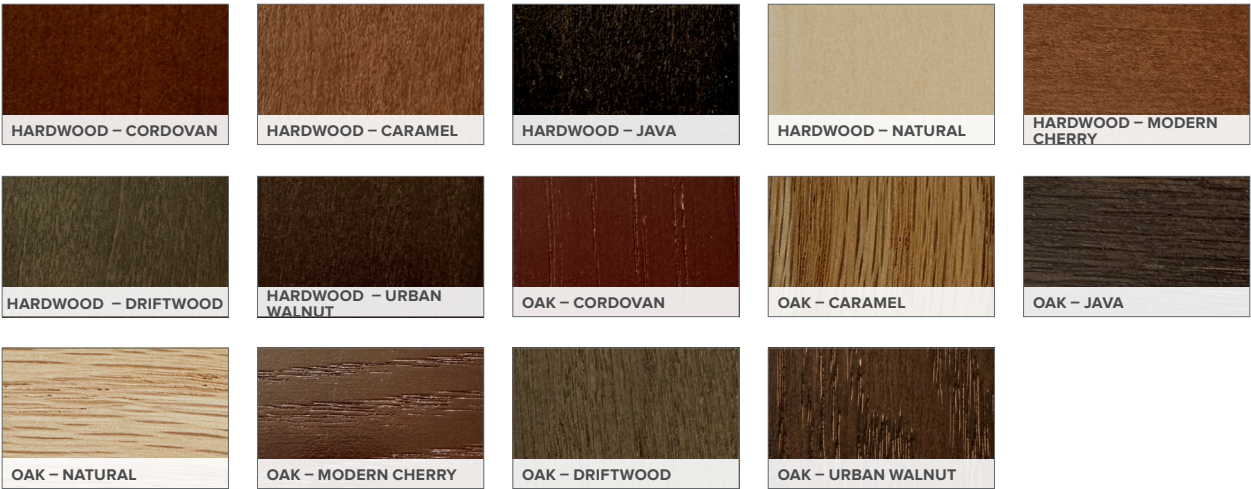

*Standard laminates may not be available on all products. Please see pricing guide for laminate selection.

Make It Yours

Premium staining processes have the ability to custom-match stain samples to create a one-of-a-kind product.

Wood Stains

Standard stains are custom-tailored and water-based to honor the character of the wood with Hydro-Gold© Clear applied to ensure the stain lasts a lifetime.

*Standard stains and vinyls may not be available on all products. Please see pricing guide for selection.
*Stain colors will vary depending on wood species

Vinyls

*Standard stains and vinyls may not be available on all products. Please see pricing guide for selection.
