

Series 40100

The Tower Mobile Message Center

Specifications

The Tower message center is a mobile free standing message letterboard. It's contemporary design offers a stylish way to display information. The unique design has the wheels built right inside the base for easy movement. Constructed of LLDPE black plastic. The 24" X 12" changeable letter surface offers space and flexibility to display any message. The Tower's L-shaped base provides stability that also serves to protect it from jostling. Comes complete with a set of 3/4" letters, numbers and characters. Ships via UPS.
